F02-Pioneer Series
OPPLE ASP Shield Socket / OPPLE Art Switch

AVOID SINGLE POLE INSERTION
DO NOT insert it with violence force.

Prevent fingers from touching the metal parts in the socket.
Effectively prevent children from accidental electric shock.

> Socket shutters can help to shield the metal parts in the socket and prevent electric shock.

> Keep children safe.

850°C Anti-flaming

Safe with High flame retardant PC material
Up to 850°C Anti-flaming PC material
Safety and No deformation.

DURABLE AND RELIABLE

16A

High Capacity

40,000 times
On-Off

5000 times
of Plugging

16A high capacity Switch with Red copper & red copper silver coated mechanism parts
Stronger current carrying capacity
Up to 40000 times of Switching

16A high capacity Socket for high-power electrical appliances
Up to 5000 times of plugging

Three color option: White and Gold and Silver Gray

EASY TO USE

> Edge to edge design with big button
Press as you like with comfortable touch

> Fluorescent indicator design

Easy to identify in the dark and no dazzling
